DETAILED ACTION

1. This Office action is in response to Applicant's amendment filed September 26, 2007. Applicant has amended claims 1, 8, 23, 29 and 36. Currently, claims 1 and 3-44 remain pending in the application.
2. The text of those sections of Title 35 U.S. Code not included in this action can be found in the prior Office actions, Paper Nos. 20060616, 20061206, and 20070417.
3. The rejection of claims 1 and 3-35 under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Mitra et al, U.S. Patent No. 6,673,761, is maintained for the reasons of record.
4. The rejection of claims 1 and 3-35 under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Ouellette et al, U.S. 2004/0244132, is maintained for the reasons of record.
5. The rejection of claims 36-44 under 35 U.S.C. 103(a) as being unpatentable over Mitra et al, U.S. Patent No. 6,673,761, is maintained for the reasons of record.
6. The rejection of claims 36-44 under 35 U.S.C. 103(a) as being unpatentable over Ouellette et al, U.S. 2004/0244132, is maintained for the reasons of record.

7. The rejection of claims 1 and 3-44 under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Shannon, US 2003/0168642, is maintained for the reasons of record.

Response to Arguments

8. Applicant's arguments filed September 26, 2007 have been fully considered but they are not persuasive.

Applicant argues that Mitra et al, U.S. Patent No. 6,673,761, does not teach or suggest in general a cleaning composition that contains more than 5-10% by weight of a surfactant, as required in the newly amended claims. However, the examiner respectfully disagrees. Specifically, the examiner asserts that Mitra et al clearly discloses that their composition contains about 5% by weight of a surfactant, such as anionic and nonionic surfactants (see col. 8, line 23-col. 9, line 26). Also note that Example 1 in column 16 of Mitra et al discloses a composition that contains 10% by weight of a surfactant. Furthermore, as the word "about" recited in instant claims 1, 23 and 36 permits some tolerance (see *In re Ayers*, 69 USPQ 109 (CCPA 1946), and *In re Erickson*, 145 USPQ 207 (CCPA 1965)), the about 5% by weight of surfactant as taught by Mitra et al may be considered to read on the instant claims, where "more than 5% by weight of surfactant" is claimed. Alternatively, if the range of prior art and the claimed range do not overlap, obviousness may still exist if the ranges are close enough that one would not expect a difference in properties, absent a showing otherwise (see *In*

re Woodruff, 16 USPQ 2d 1934 (Fed. Cir. 1990); *Titanium Metals Corp. v. Banner*, 227 USPQ 773 (Fed. Cir. 1985); *In re Aller*, 105 USPQ 233, 255 (CCPA 1955)).

Applicant further argues that Ouellette et al, U.S. 2004/0244132, does not teach or suggest in general a cleaning formulation that contains 50-99% by weight of water. However, the examiner respectfully disagrees. Specifically, Ouellette et al clearly discloses a composition that contains less than 50% by weight of water (see paragraph 156). Furthermore, the examiner asserts that if the range of the prior art and the claimed range do not overlap, obviousness may still exist if the ranges are close enough that one would not expect a difference in properties, absent a showing otherwise (see *In re Woodruff*, 16 USPQ 2d 1934 (Fed. Cir. 1990); *Titanium Metals Corp. v. Banner*, 227 USPQ 773 (Fed. Cir. 1985); *In re Aller*, 105 USPQ 233, 255 (CCPA 1955)). Also see *MPEP* 2144.05. In the instant case, the examiner asserts that it would have been obvious to optimize the water content from less than 50% by weight to exactly 50% by weight in the cleaning formulation taught by Ouellette et al, since one of ordinary skill in the art would not expect a difference in properties for a cleaning formulation that contains less than 50% by weight of water versus a cleaning formulation that contains exactly 50% by weight of water, absent a showing otherwise.

Applicant argues that Shannon, US 2003/0168642, does not teach or suggest in general a cleaning composition that contains more than 5-10% by weight of a surfactant, as required in the newly amended claims. However, the examiner respectfully disagrees. Specifically, the examiner asserts that Shannon clearly discloses that their composition contains about 5% by weight of a surfactant, such as

anionic and nonionic surfactants (see paragraphs 10 and 26-31). Furthermore, as the word "about" recited in instant claims 1, 23 and 36 permits some tolerance (see *In re Ayers*, 69 USPQ 109 (CCPA 1946), and *In re Erickson*, 145 USPQ 207 (CCPA 1965)), the about 5% by weight of surfactant as taught by Shannon may be considered to read on the instant claims, where "more than 5% by weight of surfactant" is claimed.

Alternatively, if the range of prior art and the claimed range do not overlap, obviousness may still exist if the ranges are close enough that one would not expect a difference in properties, absent a showing otherwise (see *In re Woodruff*, 16 USPQ 2d 1934 (Fed. Cir. 1990); *Titanium Metals Corp. v. Banner*, 227 USPQ 773 (Fed. Cir. 1985); *In re Aller*, 105 USPQ 233, 255 (CCPA 1955)). Furthermore, the examiner asserts that Shannon clearly discloses that suitable surfactants include nonionic surfactants, such as ethoxylated alcohols (see paragraph 27), as required in the instant claims.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
